

# Spay Neuter Action Project

Spay/Neuter Your Pet  
to Save Lives

SNAP's core mission is to provide low-cost health services for pet dogs, cats, and rabbits. Their services include:

- Spay and neuter
- Vaccinations
- Microchipping
- Basic health exams
- Nail trims

All services are provided via the Neuter Scooter, a fully equipped mobile surgical suite that visits sites throughout San Diego County. The most convenient location for Oceana residents is the MiraCosta College Community Learning Center, on Mission Ave. just east of Interstate 5. To find out when the Neuter Scooter will next be in our neighborhood, and schedule an appointment, visit <https://www.snap-sandiego.org/bus-schedule/>.

In addition to these services, SNAP's outreach programs to school-aged children, the homeless, our military, and other underserved groups are all aimed at ensuring that domestic and feral cats and dogs enjoy the best possible quality of life. Monetary donations are always welcome at this registered 501(c)(3) charitable organization.
